SPEKIFIKASI TEKNIS SPITFIRE 3X PRISM SCOPE

SPITFIRE™

PRISM SCOPE

When you need fast target acquisition in close to medium-range shooting scenarios, the Spitfire™ 3x excels. Built for AR platform rifles, it combines an impressive array of high-performance features into a rugged, ultra-compact package. The sophisticated prism-based design allows for a more compact optical system, without sacrificing a shred of optical quality. Easily switches between red or green illuminated reticle with five intensity levels. The reticle is etched directly on the prism to ensure you have point-of-aim at all times, even when the illumination is not engaged.

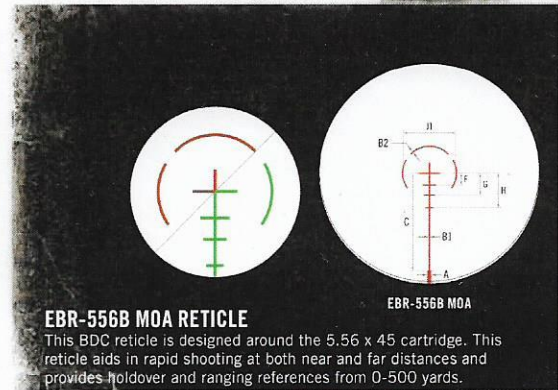

► PRISM-BASED DESIGN

Prism-based design combines an ultra-compact optic with a sharp, precise reticle for more accurate shots and bright images.

► ILLUMINATION CONTROL

Illumination Control offers red/green option with five levels of brightness.

EBR-556B MOA RETICLE

This BDC reticle is designed around the 5.56 x 45 cartridge. This reticle aids in rapid shooting at both near and far distances and provides holdover and ranging references from 0-500 yards.
